

Having a secure knowledge of times tables gives children the tools necessary to access maths more confidently and securely.

The Government suggest children should know their times tables up to  $12 \times 12$  by the end of Year 4. This is no easy feat! In Key Stage 2, we use Times Tables Rockstars to excite the children and support them to learn their times tables. It also helps to prepare them for the Year 4 times table assessment.

Every term, each class teacher will nominate a 'Class Rockstar' who has made the most effort or made the most progress in their class. In addition to that, every class has a competition to find the Ultimate Times Table Champion. These children are rewarded with a certificate and a place on the Times Table wall of fame in the Y3/4 corridor.

### **What can you do to support your child at home?**

Regular times table practise is recommended in order to help children remember their tables and to ensure quick recall. Every child in Key Stage 2 has their own Times Tables Rockstars login, which they can use at home. The website is below:

<https://play.ttrockstars.com/>

You will have received a letter with your child's login details. Please ask your child's class teacher if you would like these details again.
