

# Biomes

## Important physical processes I will understand

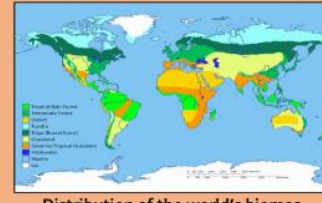

**Convectional rainfall**

**Relief rainfall**

Average summer temperatures in the UK

Distribution of the world's biomes

Average precipitation across the UK

Political map of South America

Physical map of South America

## Enquiry Question: Why are jungles so wet and deserts so dry?

### Step 1

I can give reasons why the climate is different around the world.

### Step 2

I understand how climate graphs help geographers to compare the climates of different locations.

### Step 3

I understand how the climate affects the plants and animals that live there. (Biomes)

### Step 4

I can explain why the Amazon rainforest is so wet and humid.

### Step 5

I can explain why deserts are so dry.

### Step 6

I can compare the climate of the UK to others I have studied.

## National Curriculum

Describe and understand key aspects of physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, and the water cycle.
