

## Life Skills At Parc Eglos School – Delivery Plan

- The 1decision resources have been created to provide us with the flexibility to deliver PSHE lessons in line with the needs of our students. The needs of our students will vary depending on geographical location, local community, and social issues.
- It is important that we understand our delivery guides are only a suggestion and to tailor our resources to the needs of our students and community. Children may need longer on one module than another. In addition, the 'Ask It basket' will address additional lessons that should be covered based on your class requests, this will replace the board in the corridor. Additional content should be highlighted on tracker for your year group.
- During our transition year, all year groups to complete the baseline assessment for their phase. Previous years' learning in each phase must be covered through using the video for discussion and note taking if appropriate within one/two sessions.
- Once teaching of a module is complete, staff to date the tracker.
- Include important or relevant information on tracker e.g behaviour needs, high absence, high SEN, additional content etc.

Module Abbreviation	5-8 Module Titles	Module Abbreviation	8-11 Module Titles
