Dear Parents/Carers,

Thank you for the responses we had regarding our trip to Gunwalloe beach. Those of you that have offered to help, we would like to say a big, "Yes please!" to all of you. If there are any more people that think they would be able to stay and help on the day, the more the merrier!

Thank you for sorting the transport out between yourselves, it is a huge help! Please let us know if you haven't been able to organise a lift for your child and we will see what we can do to help.

On the day, we are asking that you meet us in the car park from 8:45am. We will remain in the car park until everyone arrives so please don't panic if you have other children to drop into school first – we will wait for you.

We have planned a variety of activities that link to our Geography unit and will enable the children to answer our Big Question – 'Why do we like being beside the seaside?'. Activities include, looking for physical and human features at the beach, thinking about the impact that humans have on the beach environment and enjoying some beach-based games and activities, such as building sandcastles.

Unfortunately, we will NOT be going in the sea but might be able to stretch to dipping our toes in the stream. With this in mind, could we please ask you to pack the following things for your child that day, in a bag they can carry themselves:

- Sun hat
- Sun cream (children need to be able to apply this themselves – we can monitor)
- Packed lunch (let us know, using the link below, if you'd like to order a school packed lunch)
- Water bottle
- Bucket and spade
- Small towel/Hand towel (just for drying feet)

Thank you again for all of your support with this trip, we couldn't do it without you!

The Year 1 Team
